# Move to the Music Guide Index

Installing

1. Put the "Move to the Music" disc into your disk drive

2. Click on "Start", then "My Computer"

fig 1 .1

3. Double click on the CD drive

4. There should be a single folder. You can "Copy" and "Paste" the folder anywhere on your computer such as the Desktop. You can also drag the folder.
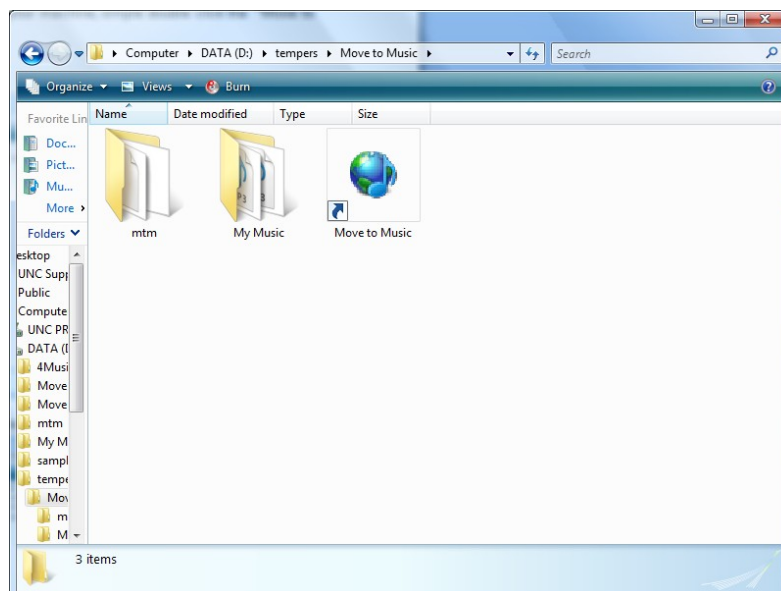

5. Do not run "Move to the Music" from the CD, you must copy it to your computer first

Running the Game

1. After the game has been copied to your machine, simple double click the "Move to Music" folder

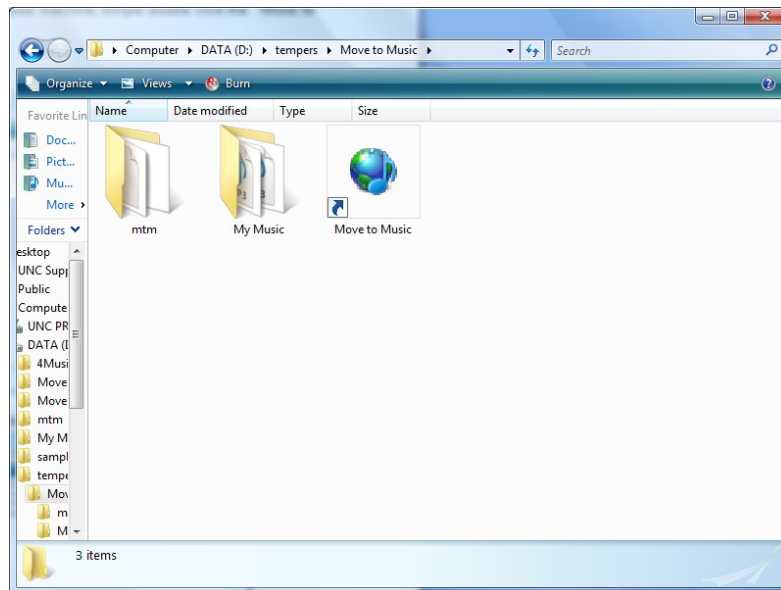

2. There should be two folders and a shortcut.

3. To start the game double click the "Move to Music" icon

4. HAVE FUN!

Adding Your Music

NOTE: Due to compatibility problems all music you wish to use for "Move to the Music" must be in .mp3 format. If the files are in a different file format, you must convert them before adding them to the game. If you are in a game and want to stop pres "Escape" on the keyboard

1. After the game has been copied to your machine, simple double click the "Move to Music" folder. There should be two folders and a shortcut.

2. Double click on the "My Music" folder.

3. Copy any .mp3 files to your this folder.

4. When you play "Move to the Music" again, the songs will be added to your "My Music" playlist

Playing Move to the Music

Controls

1. Move to the Music is meant to be played on a "Dance Dance Revolution" pad

2. The game is played by stepping on the 8 different buttons on the map. Each button is a different "step" that the player can do.

3. A player can also use the keyboard.

   a. The "Q","W","E" keys correspond to the front row of buttons

   b. The "A","D" keys correspond to the middle row of buttons

   c. The "Z","X","C" keys correspond to the back row of buttons

   d. The "up", "down", "left", and "right" buttons also relate to the corresponding buttons on the dance pad

Navigation

NOTE: All navigation is handled through the *Left, Right, Front,* and *Back* arrows. To navigate through menu choices, hit *Front* or *Back*, To choose the current selected option, hit *Right*, to go back to the previous menu hit "*Left*"

1. When you first start "Move to the Music" you will be asked if you have played the game before. If you have **not** hit *Left* if you have hit *Right*

        i. My Music may take a while to load if you have added new music
   e. Done takes you back to the intro menu

Songs menus

8. If you chose to play "freeplay" mode, or you wanted to play with your own music you will be taken to a menu that lists the all of your music. Pressing *Front and Back* will scroll you through the music choices, *Right* will play the song. *Left* will take you back to the Single player menu

9. If you chose to play "challenge" mode, all levels you have unlocked. Pressing *Front and Back* will scroll you through the levels, *Right* will choose the level. *Left* will take you back to the Single player menu
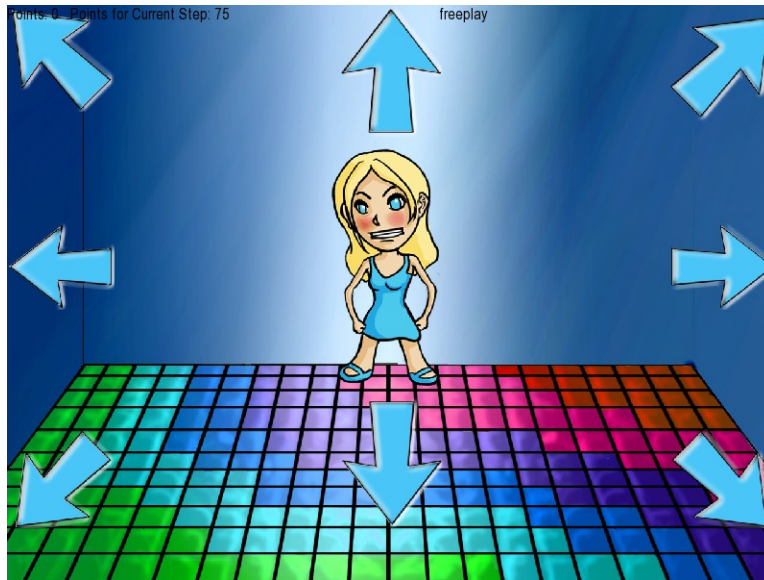

1. Once you select a level all the songs on that level. Pressing *Front and Back* will scroll you through the levels, *Right* will play the song. *Left* will take you back to choosing your level

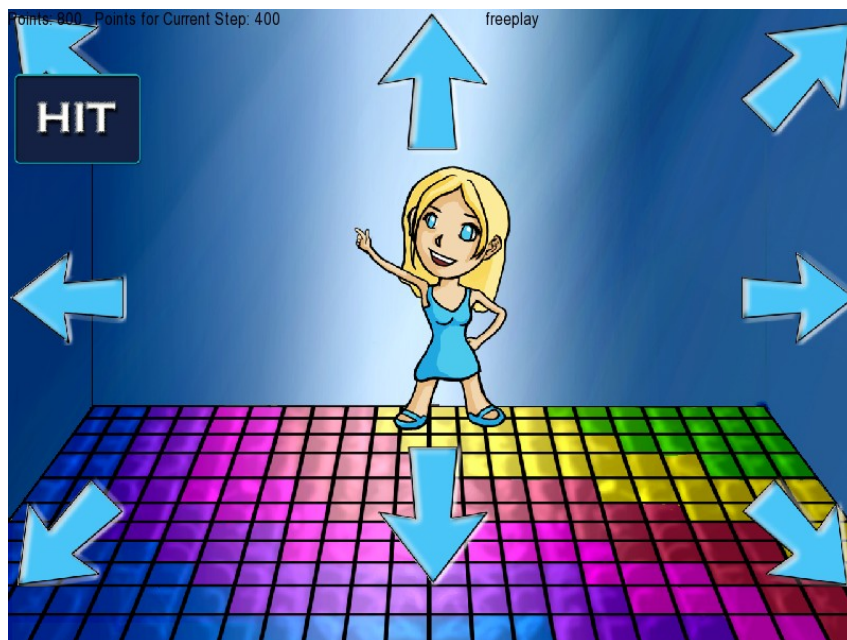

The Game

1. As the game starts, you should hear music playing. Step on the pad to the beat of the current song.

    a. If you step correctly, you should hear a clapping sound

b. The more steps you hit without missing, the more points you get!

2. If you hit a certain series of steps (without miss hitting a beat) you score a Combo. The combos name will be announced, and you rake in the BIG POINTS!

Game Over

1. After you have danced your heart out, you can hear how many points you scored. You can also see how your score stacks up to others who played the same song.

2. Hitting *Left* will take you back to the song chooser menu

3. Hitting *Right* while selecting "Done" will take you back to the song choose menu

4. Hitting *Right* while selecting "List high Scores" will list the high scores by any user on the song

5. Hitting *Right* while selecting "Player High Scores" will list your high scores of that song

6. Hitting *front* and *down will scroll through the options*
